

## **Survey on the current state of care for patients suffering from brain diseases :**

### **Questionnaire**

The answers should be according to the current situation of your country.

If you wish you may justify your answer. You do not need to answer to every questions (but as much as possible)

Your Country :

1. Do you agree with the current state of prevention being :
  1. Not homogenous within regions : YES/NO
  2. Of good quality of cares except for psychiatry : YES/NO
  3. Eventual comments/recommendations :
  
2. Do you agree with the current state of diagnosis :
  1. In general delay in accurate diagnosis: YES/NO
  2. Delay in diagnosis for neurocognitive and sleep disorders YES/NO
  3. Eventual comments /recommendations :
  
3. Do you agree with the current state of treatment :
  1. Deficiency in multidisciplinary integrated home care YES/NO
  2. Weaknesses in rehabilitation programme and non-pharmacological therapeutics YES/NO
  3. Eventual comments/recommendations :
  
4. Do you agree with the order of priorities allocated YES/NO:
  1. Stroke
  2. Alzheimer diseases
  3. Multiple sclerosis
  4. Parkinson
  5. Psychiatric diseases are NOT sufficiently supported
  6. Eventual comments/recommendations :
  
5. Do you agree with the existence of the following current trends for improvement of patients care YES/NO:
  1. National policy to reduce hospitalization by improving healthcare pathways and ambulatory management
  2. National center for better diagnosis of rare neuro diseases
  3. Eventual comments/recommendations :
  
6. Do you agree with the following increases in your government spending for patients with brain disease :
  1. Initiatives with budget for Huntington diseases in particular home care YES/NO
  2. Initiatives with budget for Multiple sclerosis in particular in home care YES/NO

3. Initiatives for ALS in particular in home care YES/NO
4. Existence of National Plan for Alzheimer and Related disorders (ADRD in France) YES/NO
5. Existence of plans for rare diseases YES/NO
6. Initiatives with budget for Autism
7. Eventual comments/recommendations :

7. Are they efforts made to increase collaboration amongst medical (General practionner, neurologists and psychiatrists) and paramedical staff (GPs, nurses, other trained assistants) for the care of patients YES/NO

1. Exist only amongst patients associations YES/NO
2. Eventual comments/recommendations :

8. Have access to new and innovative technologies improved (Neuroimaging, pet scan, clinical neurophysiology platforms) YES/NO

1. For Multiple sclerosis YES/NO
2. For Stroke YES/NO
3. Shortening approval process for drugs to be on the market YES/NO
4. Reimbursement for accessing new technologies YES/NO
5. Access to new disease modifying drugs YES/NO
6. Access to non pharmacological aproaches YES/NO
7. Eventual comments/recommendations :

9. The implementation for better coordination in the care of brain diseases is still left behind YES/NO

1. Eventual comments/recommendations :

10. Do you agree with the following challenges to be performed/tackled for improving care for patients with brain diseases :

1. Develop evidence based and socially responsible policy by collecting data from ongoing clinical trials and basic research to optimally adress unmet needs. YES/NO
2. Develop translational research YES/NO
3. Increase education on innovative technologies YES/NO
4. Improve structure of coordinated healthcare YES/NO
5. Improve rehabilitation programmes YES/NO
6. Improve budget and research in psychiatry
1. 7. Eventual comments/recommendations :
